

Matthew E. Grady - matdoesstuff@gmail.com
Hybrid Technical Game Designer & Interactive Narrative Producer

TECHNICAL SKILLS

Languages & Engines:	C++, C#, Unity, Git, Version Control
Systems & Design:	Physics modeling, gameplay systems design, iterative prototyping
Production & Leadership:	Content pipeline management, scheduling, collaborative direction
Fabrication & Hardware:	3D printing, soldering, mechanical assembly

EDUCATION

MSc Game Design – Newcastle University *2022 - Ongoing*

- Focused on systems design, simulation, and interactive development
- Dissertation: Fluidization & Buoyancy Simulation Modeling

Associates in Science – Southwestern College *2018 - 2022*

- Web & Gaming Development Focus
- Presidential Honor Roll (2021, 2022)

GAME & TECHNICAL PROJECTS

Private Game Development Project *2026 - Ongoing*

Independently designing and developing a systems-driven game from concept through implementation, architecting core mechanics, gameplay loops, and technical structure.

Group Game Project - Collaborative Development *2026 - Ongoing*

Collaborated within a milestone-driven development team, contributing to gameplay systems design and structured implementation under fixed deadlines.

Dragonsteel Nexus Scheduling App - Independent Developer *2025*

Designed and implemented a convention scheduling application, structuring event data and building user-facing planning tools.

Fitness Exploration App - Development Contributor *2024*

Contributed to feature implementation and technical refinement within a collaborative application development team.

PRODUCTION & NARRATIVE LEADERSHIP

Producer & Manager - Shard of Opportunity *2024 - Ongoing*

Lead production logistics, scheduling, and creative coordination for a long-form narrative web series. Manage collaborative direction and multi-episode continuity.

Podcast Manager & Scriptwriter - Cosmere Connections *2022 - Ongoing*

Manage weekly production pipeline, scriptwriting, and digital presence for a book-focused podcast, overseeing branding and audience engagement strategy.

Panelist - Dragonsteel Nexus Convention *2024*

Spoke on two panels, including participation in an opening session at a major fantasy publishing convention.

TECHNICAL & FABRICATION EXPERIENCE

3D Printing & Prop Fabrication (Independent Work)

2018 - Ongoing

Printed and assembled multi-part cosplay props from STL files, performing soldering, electronics integration, mechanical assembly, and printer calibration troubleshooting.

Titanbot Robotics Team - Member → Media Vice

2014 - 2018

Served as Media Vice (2016–2018), leading multimedia production and public representation efforts. Contributed to robotics design and competition preparation within a collaborative engineering environment.

WRITING & CREATIVE DEVELOPMENT

Creative Writing Society

2023 - Ongoing

Published two short stories through university workshops; third in progress. Engage in structured critique and iterative narrative development.

LEADERSHIP & SERVICE

Boy Scouts of America - Member → Den Chief → Eagle Scout

2012 – 2021

Served as Den Chief mentoring younger scouts and coordinating activities. Achieved Eagle Scout through completion of a community leadership project.
